FROM THE PRESIDENT

The promise of Tennessee’s future and that of the University of Tennessee are inextricably linked. As we achieve greater success in delivering high-quality education to greater numbers of Tennesseans, the state of Tennessee will be poised for greater opportunity for generations to come.

ON THE COVER

This medallion bearing the “University of Tennessee President’s Seal” is worn by the UT System President for commencement ceremonies. It was originally designed by UT architect Malcolm Rice for the inauguration of Dr. Andy Holt in 1960. The three words in the center signify the qualities of a UT president—vision, character and energy. The silver overlay depicts a Gordian knot being cut by a sword, a leaping flame signifying the torch of knowledge and a quill representing the power of the written word.

ANNUAL REPORT TO THE GENERAL ASSEMBLY 2013
Construction continues on UT Chattanooga’s new library that is set to open in the 2014-15 academic year. The current library holds 400,000 print books with about 5,000 new added each year. The new library will accommodate 30 years of growth to hold future acquisitions.

UT is evaluating new forms of teaching through contracts with Coursera and edX. Over 18 months, our faculty and students are testing these platforms to determine if they can be used to improve the educational experience and progression and graduation of our students.

The University of Tennessee offers more than 40 online academic programs and 600 online courses. Professor Richard Griffin at UT Martin has been teaching online since 1998.
Dr. Edward Chaum at UT Health Science Center has come up with a way to help diabetics save their sight. Using a telemedical network connected to a library of retinal images managed by Chaum, primary-care physicians can diagnose eye disease.

The history of the important partnership between UT and Oak Ridge National Laboratory, including how UT rejuvenated the lab from possible closure to becoming the lead DOE research facility, is chronicled in the book “Breaking the Mold,” published this year.

Was there water on Mars? Associate Professor Linda Kah at UT Knoxville is part of NASA’s Mars Curiosity Rover team analyzing whether the planet once had flowing water. They believe it did, which means the planet may have had the potential to support life.

ANNUAL REPORT TO THE GENERAL ASSEMBLY 2013
During the 2013 fiscal year, total funds invested for the benefit of UT grew to $963 million from $869 million. Solid investment performance by nearly every asset class in which the University invests helped produce the $94 million increase. Credit-related investments as well as natural resource holdings were particularly strong. In contrast, high-grade bonds (traditional “safe-haven” investments) produced negative returns due to a significant rise in interest rates over the period. Historical funds available to the University of Tennessee in fiscal year-end are displayed in the accompanying chart. As of June 30, 2013, total Endowments were $684 million; Chairs of Excellence, $123 million; the University of Chattanooga Foundation, $112 million; and Life Income Trusts were $44 million.

The majority of University endowments, $672 million, is invested through the University’s Consolidated Investment Pool. This vehicle was established in 1954 to allow for diversification and efficient investment of all endowed assets, regardless of their size. The long-term goal of the pooled-endowment investment program is to provide a sustainable level of support for the University programs, while preserving the real purchasing power of the endowments for the future in perpetuity.

Over the last 12 months, the pool generated a total return of 12.3% and +6.7% over the ten-year period. During the fiscal year, it distributed $28 million, a modest increase from the $26.4 million in the prior year. The distribution rate is calculated using a rolling calendar three-year average of the pool’s market value. This rolling average method helps smooth out market volatility and changes in expense ratios from year to year. The actual rate is equal to 4.5% of that three-year rolling average.

Finally, the Tennessee Chairs of Excellence distributed $3.7 million, and the University of Chattanooga Foundation provided $6.4 million for the fiscal 12 months. Both of these categories are managed outside the pool. The Chairs of Excellence are administered by the treasurer of the state of Tennessee for the benefit of all UT campuses. The University of Chattanooga Foundation, affiliated with the University of Tennessee, is managed by its foundation board and supports programs at UT Chattanooga only.
