Financials

Investments Benefiting the University

Total funds invested to benefit UT decreased by $232 million during fiscal year 2009, reflecting the collapse of the capital markets during the last half of 2008 through March 2009. Private support from alumni and friends during the fiscal year helped mitigate this capital market malaise. The graph below depicts the growth of these funds over the past decade; growing by $64 million even after two multiple-year down markets covering half of the decade.

The market value of these funds totaling $707 million at June 30 is comprised of five distinct components: University pooled endowments ($475 million), University separate endowments ($10 million), Life Income Trusts ($42 million), University of Chattanooga Foundation ($87 million), and the Tennessee Chairs of Excellence ($93 million). On the graph, the University pooled endowments and University separate endowments are combined.

The University pooled endowments are managed by the University in a consolidated investment pool created in 1994 to provide the advantages of a well-diversified investment portfolio to all participating endowments regardless of size. Reported June 30, 2009, investment returns for the pooled endowments totaled -24.2 percent and 2.7 percent for the one- and 10-year periods respectively. Income distributed from the pooled endowments for the year totaled $34.2 million, an increase of $3.4 million over the previous year. This amount was in accordance with the spending plan articulated at 5 percent of a three-year moving average market value measured each Dec. 31. The long-term goal of the pooled endowment investment program is to provide a sustainable and increasing level of support for University programs while preserving the real purchasing power of the endowment.

The Tennessee Chairs of Excellence and the University of Chattanooga Foundation, are managed outside the University. The Chairs of Excellence, managed by the state of Tennessee, provided $3.6 million during the year to support chair programs at all UT campuses. The University of Chattanooga Foundation, managed by its foundation board, provided $2.8 million for programs at UT Chattanooga.

Total Funds
Despite the widespread economic difficulties impacting the University of Tennessee and our peers, we remain the driving economic, educational, and cultural force in the state.

We have the best students and the best faculty we’ve ever had. For six consecutive years, incoming freshmen classes have been increasingly better-qualified. They are taught by faculty creating meaningful connections and quality educational experiences. Faculty researchers are winning top-level external awards from such prestigious organizations as the National Science Foundation and the National Endowment for the Humanities. Multiple researchers elsewhere have been drawn to UT, evidenced by the U.S. Office of Naval Research’s Governor’s Chair award.

Led by almost 60 percent at Knoxville and averaging nearly 53 percent across our campuses, UT’s graduation rates are the highest among Tennessean public higher education institutions. We can and will do better in this important measure.

Since it began in 2004, the UT Promise scholarship program has opened UT opportunities to more students. Now UT’s reputation for providing quality education is exceeding the lottery scholarship expectations of its industries. Our students and graduates are telling others about our excellent UT education, helping us retain Tennessee’s best and brightest.

Graduating more students and keeping them in Tennessee enhances the state’s workforce and boosts the state’s economy. An Tennessee’s land grant institution, UT further serves as an economic engine in applying its unprecedented resources to solve real-world problems. We provide more than excellent education, economic impact, and life-changing research. We create a cultural context statewide, the landscape in which businesses operate, and an environment in which businesses can prosper. We also train Tennessee’s future poets and painters.

Available and affordable energy is one of the fundamental problems of our time. Greg Philbrook and the State Legislature have partnered with UT in seeking a solution. University energy and state investment are melding dividends.

Construction of a pilot bioenergy in Vonore finishes in December 2009. The facility is expected to produce cellulosic ethanol by year’s end.

- In September 2009, federal stimulus funding was approved for the $23.5 million Volunteer State Solar Initiative. It includes the Knoxville-based Tennessee Solar Institute, where UT and ORNL will forge partnerships with industry in seeking to improve and deploy solar technology - and a West Tennessee solar farm to be managed by UT.
- Site preparation is underway at Cherokee Farm, where an interdisciplinary research campus will maximize UT’s relationships with ORNL and private partners.

Volkswagen, Walker-Chemings AG, and Henselhock Semiconductor are among the high-profit companies UT resources are helping attract to Tennessee.

UT resources also are enhancing quality of life in Tennessee and beyond. Using technology developed at ORNL to understand semiconductor defects, our Health Science Center doctors are identifying eye disease at earlier stages. A high-profit case early in 2009 further underscored the quality of our Health Science Center’s liver transplant program - ranked in the top 10 among such programs nationally.

UT extension served citizens through its statewide presence with more than 5 million contacts in FY 2009. Our Institutes for Public Service answered more than 24,000 requests for assistance last year, creating more than 971 million in economic impact.

UT-Chattanooga and UT Martin both achieved record-breaking enrollment: 40,120 students and 8,038 students, respectively, in Fall 2009. A new education center at Chattanooga brings to three the number of facilities where UT Martin is expanding access to its graduate and undergraduate education in West Tennessee.

A new UT Knoxville more than doubled its research awards to $118 million in FY 2009 after securing approximately $87 million the previous year.

Our critical momentum must be sustained. University leaders and stakeholders are collaborating on difficult decisions to preserve our upward trajectory after federal stimulus funding ends and as we search for permanent and permanent leadership.

To prepare for an anticipated shortfall in state funding two years from now, we are reviewing System administration to evaluate services provided. Reorganization will aim for a System administration strong enough to develop opportunities but flexible enough to allow campuses appropriate autonomy.

A clear structure is necessary to recruit and retain a new university president. The job description for the next president is being developed in conjunction with System administration. Once that process is complete, the president should take appropriate steps to completing.

We provide the state’s best and most-comprehensive public higher education, while fulfilling our outreach and research obligations as Tennessee’s land-grant institution. We will continue striving to protect our core values of education, research and outreach, and to emerge from these difficult times even better.
Despite the widespread economic difficulties impacting the University of Tennessee and our peers, we remain the driving educational, economic, and cultural force in the state.

We have the best students and the best faculty we’ve ever had. For six consecutive years, incoming freshmen classes have continued to be increasingly better qualified. They are taught by faculty creating meaningful connections and quality educational experiences. Faculty researchers are winning top-tier external awards from these prestigious organizations as the National Science Foundation and the National Endowment for the Humanities. Multiple researchers elsewhere have been drawn to UT, evidenced by Dr. Ullman, a chancellor of the National Laboratory Governor’s Chair appointed this calendar year.

Led by almost 40 percent at Knoxville and averaging nearly 50 percent across our campuses, UT’s graduation rates are the highest among Tennessee’s public higher education institutions. We can and will do better in this important measure.

Since it began in 2004, the HOPE lottery scholarship program has opened UT opportunities to more students. Now UT’s reputation for providing quality education is exceeding the lottery scholarship expectations. Our faculty and students are telling others about our excellent UT education, helping us retain Tennessee’s best and brightest.

Graduating more students and keeping them in Tennessee enhances the state’s workforce and boosts the state’s economy. As Tennessee’s land-grant institution, UT further serves as an economic engine in applying its research resources to solve economic problems. We provide more than excellent education, economic impact, and life-changing research. We create a cultural context statewide, the landscape in which business operates, and an environment in which businesses can prosper. We also train Tennessee’s future poets and painters.

Available and affordable energy is one of the fundamental problems of our time. Gov. Phil Bredesen and the State Legislature have partaken with UT in seeking a solution. University visionaries and state investment are yielding dividends.

Construction of a pilot bioenergy in Voss is finished in December 2009. The facility is expected to produce cellulosic ethanol by year’s end.

• In September 2009, federal stimulus funding was approved for the $82.5 million Volunteer State Solar Initiative. It includes the Knoxville-based Tennessee Solar Institute — where UT and ORNL will form partnerships with industry in seeking to improve and deploy solar technology — and a West Tennessee solar farm to be managed by UT.

• Site preparation is underway at Cherokee Farm, where an interdisciplinary research campus will maximize UT’s relationships with ORNL and private partners.

• Volkswagen, Walker Chemicals AG, and Hemlock Semiconductor are among the high-performance companies UT resources are helping attract to Tennessee.

UT resources also are enhancing quality of life in Tennessee and beyond. Using technology developed at ORNL to understand semiconductor defects, our Health Sciences Center doctors are identifying eye disease at earlier stages. A high-profile case early in 2009 further underlined the quality of our Health Sciences Center’s liver transplant program — ranked in the top 10 among such programs nationally.

UT Extension served criticism through its statewide presence with more than 5 million contacts in FY 2009. Our Institutes for Public Service answered more than 24,000 requests for assistance last year, creating more than $121 million in economic impact.

UT Chattanooga and UT Martin both achieved record-breaking enrollment: 10,200 students and 8,000 students, respectively — in Fall 2009. A new educational center at Chattanooga brings to five the number of facilities where UT Martin is expanding access to its graduate and undergraduate education in West Tennessee.

UT Knoxville more than doubled its research awards to $118 million in FY 2009 after securing approximately $87 million the previous year.

Our critical momentum must be sustained. University leaders and stakeholders are collaborating on difficult decisions to preserve our upward trajectory after federal stimulus funding ends and as we search for our permanent leadership.

We provide the state’s best and most-comprehensive public higher education, while fulfilling our outreach and research obligations as Tennessee’s land-grant institution. We will continue striving to protect our core values of education, research and outreach, and to emerge from these difficult times even better than ever.

Jon Smoak
Interim President

Financials

Sources and Uses of Current Funds for the Year Ended June 30, 2009

Federal and Local Appropriations $18,918,509.27
Appropriations received in support of the University’s land-grant mission, and primarily by the Agriculture Extension Station and Tennessee Extension.

Other $13,100,121.77
Revenues generated from sources not included in other classifications, such as sales and services by University departments and investment income.

Independent Operations $73,098,549.20
Revenues received from the UT Medical Center in Knoxville and the Methodist Hospital in Memphis for travel-related activities.

Total $178,978,807.59

Tuition and Fees $131,825,050.88
Revenues collected from students includes resident enrollment fees, program and service fees, extension enrollment fees and other fees.

State Appropriations $49,977,300.00
Legislative appropriations from the Tennessee General Assembly for current operations of the University.

Gifts, Grants, and Contracts $3,551,700.00
Revenues from federal and non-federal grant making entities and gifts restricted for specific purposes, primarily for sponsored research and training activities.

Total $178,978,807.59

Uses

Long Term Debt & Other Transfers $5,078,293.57
Mandatory transfers for debt service and other transfers.

Student Services $78,046,581.31
Expenditures for student services, including admissions, registrar, student activities, computing, career guidance, services to students with disabilities, administration, and health services.

Independent Operations $73,098,549.20
Expenditures for lease payments for the UT Medical Center in Knoxville and the Methodist Hospital in Memphis.

Physical Plant $116,683,266.76
Expenditures for the operation and maintenance of physical plant including utilities and service related to grounds and facilities.

Institutional Support $110,654,446.11
Expenditures for executive management, financial operations, personnel services, security, public relations, development activities, and alumni relations.

Academic Support $128,260,016.11
Expenditures for libraries, computing support, and academic administration.

Auxiliary Enterprises $134,506,015.31
Acctivities that furnish goods and services to students, faculty and staff. Includes mandatory transfers for debt service.

Public Service $132,214,698.98
Expenditures for non-instructional programs beneficial to individuals and groups external to the University.

Student Aid $185,189,507.07
Grants and fellowships awarded to students.

Research $253,700,070.07
Direct expenditures for sponsored research activities funded from federal, state, local, and private sources.

Institutional Support $29,975,158.27
Includes all expenditures, including faculty and staff salaries incurred in connection with instruction programs for credit and non-credit courses.

Total $1,784,621,515.76

UT Knoxville
The freshmen class of 3,723 students at the University of Tennessee Knoxville has an average high school GPA of 3.79, the highest of any state university in the Tennessee system.

UT Chattanooga
UT Chattanooga alumni live in every country of Tennessee, in every county in the U.S., and in 65 foreign countries.

UT Health Science Center
For every $1 in state appropriations to UTHSC, the schoolretains $2 in tuition and other student contributions to the school economy.

UT Martin
UT Martin covers 34 instructional areas, including business, health science, education, engineering, arts, and sciences.

UT Institute of Agriculture
For 2009-09, the UT Institute of Agriculture achieved 28 non-technical service contracts and presented an overall $37 million in economic impact through technology transfer.

UT Institute for Public Service
As an institutional service office, UTIPS offers programs to federal agencies, state agencies, and private organizations.

UT Space Institute
UT Space Institute has awarded more than 1,000 M.S. and Ph.D. degrees since 1985.

Despite the widespread economic difficulties impacting the University of Tennessee and our peers, we remain the driving economic, educational, and cultural force in the state.

We have the best students and the best faculty we've ever had. For six consecutive years, incoming freshman classes have continued to be increasingly better-qualified. They are taught by faculty creating meaningful connections and quality educational experiences. Faculty researchers are winning top-level external awards from such prestigious organizations as the National Science Foundation and the National Endowment for the Humanities. Duke's new research facilities elsewhere have been drawn to UT, evidenced by Dr. Ulric O’Riordan of the National Laboratory Governor's Chair hired this calendar year.

Led by almost 60 percent at Knoxville and averaging nearly 51 percent across our campuses, UT's graduation rates are the highest among Tennessee's public higher education institutions. We can and will do better in this important measure.

Since it began in 2004, the HUPE lottery scholarship program has opened UT opportunities to more students. Now UT's reputation for providing quality education is exceeding the lottery scholarship expectations of our students. Our graduates and students are telling others about their excellent UT education, helping us retain Tennessee's best and brightest.

Graduating more students and keeping them in Tennessee enhances the state's workforce and boosts the state's economy. Among Tennessee's land-grant institutions, UT farther serves as an economic engine in applying its research to solving real-world problems. We provide more than excellent education, economic impact, and life-changing research. We create a cultural context statewide, the landscape in which business operates, and an environment in which businesses can prosper. We also create Tennessee's future poets and painters.

Available and affordable energy is one of the fundamental problems of our time. Greg Phil Brooks of the State Legislature has partnered with UT in seeking a solution. University resources and state investment are yielding dividends.

Construction of a pilot bioenergy in Vonore finishes in December 2009. The facility is expected to produce cellulosic ethanol by year's end.

• In September 2009, federal stimulus funding was approved for the $83.5 million Volunteer State Solar Initiative. It includes the Knoxville-based Tennessee Solar Institute—where UT and ORNL will form partnerships with industry in seeking to improve and deploy solar technology—and a West Tennessee solar farm to be managed by UT.

• Site preparation work is underway at Cherokee Farm, where an interdisciplinary research campus will maximize UT's relationships with ORNL and private partners.

Volkswagen, Wacker Chemie AG, and Hamrock Semiconductor are among the high-profile companies that UT resources are helping attract to Tennessee.

UT resources also are enhancing quality of life in Tennessee and beyond. Using technology developed at ORNL to understand semiconductor defects, our Health Sciences Center doctors are identifying eye disorders at earlier stages. A high-profile case early in 2009 further underscored the quality of our Health Sciences Center’s liver transplant program—in the top 10 among such programs nationally.

UT Extension served citizens through its statewide presence with more than 5 million contacts in FY 2009. Our Institutes for Public Service answered more than 24,000 requests for assistance last year, creating more than $172 million in economic impact. UT-Chattanooga and UT Martin both achieved record-breaking enrollment—10,459 students and 8,000 students, respectively—in Fall 2009. A new educational center at Pigeon Forge brings to five the number of facilities where UT Martin is expanding access to its graduate and undergraduate education in West Tennessee.

UT Knoxville more than doubled its research awards to $318 million in FY 2009 after securing approximately $187 million the previous year.

Our critical momentum must be sustained. University leaders and stakeholders are collaborating on difficult decisions to preserve our upward trajectory after federal stimulus funding ends and as we search for ways to maintain and permanent leadership.

To prepare for an anticipated shortfall in state funding two years from now, we are reviewing System administration to evaluate services provided. Reengineering will aim for a System administration strong enough to develop opportunities but flexible enough to allow campuses autonomy.

A clear structure is necessary to recruit and retain a new university president. The job description for the next president is being developed in conjunction with System administration adjustments. Once initiated, the search should take approximately a year to complete.

We provide the state's best and most-comprehensive public higher education, while fulfilling our outreach and research obligations as Tennessee's land-grant institution. We will continue striving to protect our core values of education, research and outreach, and to emerge from these tough times even better.

Ian Smick
Interim President
